Dear Mr. Zeman:

*Ben*

On behalf of the NYSCASA Board and staff, I want to thank you for the role you played in making NYSCASA's conference a success. The feedback from participants and initial read of the evaluations are all very positive. Everyone agreed that the selection of topics and presenters made it difficult to choose what to attend and that they wanted more, more, more!

I'm glad that the luggage setback in no way interfered with the success of your performance and workshop. One colleague said that his head was whirling with new ideas for what he wants to do to organize men as allies in his community and workplace.

The current plan is to consider doing a NYSCASA conference bi-annually, rotating the location around the state. We would like to keep you on our roster of potential speakers for future conferences and trainings. Do not hesitate to also use us as a reference when needed for your own work.

We look forward to working with you again and wish you strength as you continue your role in ending sexual violence.

Sincerely,

Anne Liske  
Executive Director
